

Spencer Butte Closures

During project construction, park users will see two types of closures
Monday–Friday through July 2015

Partial Closure Area

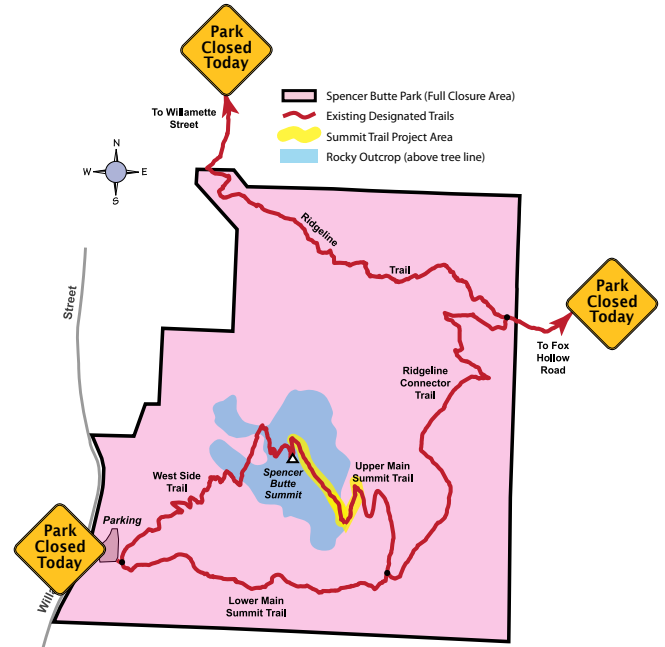

The Upper Main Summit Trail and surrounding areas are closed during project work hours— 7 a.m. to 4:30 p.m., Monday through Friday—to protect the public.

The west trail and the main trail up to the Junction Meadow are open *except* for days when helicopters are moving materials.

CAUTION: The West Summit Trail IS NOT suitable for young children and those with physical limitations. There are extremely steep grades on exposed rock in places that must be both ascended and descended.

Full Closure Area

Due to safety concerns, we must close all of the park during days of helicopter activity (moving construction materials to the summit).

These closures will be limited to one day per week. Signs will be posted and park gates will be locked from 6 a.m. to 6 p.m.
